Good Morning Marietta,

Debra and I just had a high level conversation with the registrant. We discussed the proposed new PRIA date, clarification of use season on the label, how they will track the sales and distribution, additional information for the stewardship plan, and the data requirements. *The attached word file contains the internal notes Debra and I used for the discussion, but we did not send it to the registrant.*

The registrant was open to all of our suggestions including adding more details to the stewardship plan and expressed they will likely be able to conduct the Tier 1 pollinator studies and tie the submission of those studies to the "terms" of registration. The registrant plans to submit the revised labels and updated stewardship plan to us by early next week, likely Monday 12/28/2020.

Debra and I will be putting the draft decision document and terms of registration on a one drive and share them with the group by COB Monday.

Please feel free to contact us if you have any questions.

Regards,

Shanta

In the comms meeting this morning, they said that the Administrator has a meeting in Florida on Jan. 12, 2021, and that they hoped it would publish before that.

Ed/Mike –

Please see an update below from the team on aldicarb. Given that the comment period closes on 1/6<sup>th</sup>, we do not believe that we will be able to make the 8<sup>th</sup>. We already have comments in the docket and expect some more. We propose a date of the 15<sup>th</sup>, but we are hearing from the comms team that the administrator has an announcement date planned. Please advise.

We are working from draft assessments in the hope that we don't get any major last changes. EFED/HED/BEAD – please confirm.

Thanks,  
Marietta
